

T. Brewer & Co Ltd - Price Schedule with effect from 1 August 2010

Brewer's hold extensive stocks on the quay and at their yards, ensuring a superb variety of widths and lengths for immediate delivery.

Wherever possible, Carcassing material is sourced from one sawmill in Sweden, giving excellent and consistent quality.

Carcassing, Fencing & Decking

All stock Carcassing is Kiln Dried, Planer Regularised (with eased edges), Strength Graded to C16 or C24, and Preservative Treated.

Perfect for high quality work, ensuring level floors, consistent stud walls, time after time!

P.A.R / P.S.E Sections

As part of our ongoing efforts to procure certified timber, due to customer demand we are changing our planed and moulded softwood items across to FSC Certification from PEFC.

During this process we will not be supplying these goods under our Chain of Custody (CoC), unless requested to do so by you, at the time of order. Please be assured that if CoC is required, we can fulfill your requirements from stock, as normal.

If you have any queries on this matter, please speak to a member of our sales team.

Brewer's experience has shown that 2nd fix items need to be produced from top grade materials - they are the pieces which people see every day!

Most items are machined therefore from higher grades, in board form, to ensure excellent quality.

* Dual Purpose - Chamfered & Rounded on one side, with Pencil Round to reverse.

* Door Lining Sets - Pre Haunched - Please check on door sizes before ordering.

Trade discounts are applicable to these prices. Please contact our sales team for further information. For existing customers, please email "discounts@tbrewer.co.uk" to receive your schedule of discounts.

T. Brewer & Co Ltd - Price Schedule with effect from 1 August 2010

DID YOU KNOW ?

Brewer's have 4 depots across the London and Home Counties, giving a large 'Premier' Delivery area. This means that Brewer's can supply you from Tadworth in the South to Letchworth in the North - and Aylesbury in the West to Tilbury in the East.

Next day guaranteed, for all orders received by 3.00pm.

Deliveries for outside this area can be arranged through any of our yards below:

Amersham

Tel: 01494 713172 Unit 5, Penn Street Works, Penn Street,

Fax: 01494 713546 Amersham, Bucks, HP7 0PX

email: amersham@tbrewer.co.uk

Clapham (Depot & Head Office)

Tel: 020 7720 9494 Timber Mill Way, Gauden Road,

Fax: 020 7622 0426 Clapham, London, SW4 6LY

email: clapham@tbrewer.co.uk

Enfield (Enfield Timber)

Tel: 020 8804 1800 1 - 23, Hertford Road, Enfield Highway,

Fax: 020 8443 4569 Enfield, Middx., EN3 5JD

Email: enfield@tbrewer.co.uk

Lewisham

Tel: 020 7720 9494 Old Station Yard, Springbank Road,

Fax: 020 7622 0426 London, SE13 6SS.

email: lewisham@tbrewer.co.uk

T. Brewer & Co Ltd - Price Schedule with effect from 1 August 2010

Brewer's experience working with importing agencies and companies, monitoring environmental & conformance policies, ensures that customers receive top grade material, competitively, and ecologically sourced.

Chain of Custody (CoC) - What Does It Mean?

CoC is a method of tracking timber from source. The normal method of verifying CoC is by using an approved scheme. The Government has approved the following schemes:

CSA FSC MTCS PEFC SFI

Most specifiers now understand that PEFC is equally acceptable to FSC, but sometimes they limit materials to one scheme. This can cause problems on quality and availability.

Brewer's are registered to supply CoC through all of the approved schemes and well over 90% of all ex-stock products carry CoC certification.

It is, however, extremely important for customers to request CoC at the time of ordering. If customers ask for proof of CoC after delivery, it may be found that some items are uncertified.

WBP Plywood - What Does It Mean?

WBP is an old term (it stands for 'Weather & Boil Proof') - it is no longer an approved description. It has been superceded by the term 'Exterior Glued'.

All of Brewer's Plywoods are 'Exterior Glued' which means they have been boil tested and checked to ensure that they are suitable for exterior use.

No Plywoods are Water Proof!! They must all be protected from rain/snow/moisture, by some coating or covering, even temporarily.

Sometimes customers advise that plywood has delaminated. Usually, this is the face veneer starting to come away from the sheet, because it has been left exposed; water has soaked into the veneer, causing it to expand and break away.

Brewer's cannot accept any claims in these situations.

Trade discounts are applicable to these prices. Please contact our sales team for further information. For existing customers, please email "discounts@tbrewer.co.uk" to receive your schedule of discounts.

T. Brewer & Co Ltd - Price Schedule with effect from 1 August 2010

OSB (Orientated Strand Board)

Description	Under £250 Delivered	Collected or Over £250 Delivered	Per
Orientated Strand Board (OSB) Type 2 FSC Mixed 70% 2440 X 1220 X 8	£21.46	£18.66	ea
Orientated Strand Board (OSB) Type 2 FSC Mixed 70% 2440 X 1220 X 11	£22.28	£19.37	ea
Orientated Strand Board (OSB) Type 3 Conditioned BBA Certified FSC Mixed 70% 2440 X 1220 X 18	£35.67	£31.02	ea

* 8mm & 11mm are not structural materials * OSB 3 18mm is structural under agreement certification

'Structural' Sheet Materials - What does it all mean? What should I do?

Where sheet materials are fixed to floors, walls, roofs and any other structural applications, a panel that has been structurally tested must be used. Brewer's cannot be held responsible in these situations.

Using Non-Structural boards for these applications is almost certain to be in breach of the relevant building regulations, and could result in materials having to be replaced.

There are a variety of methods to achieve a Structural Rating:

* BS5268 Pt2 - Probably the strictest test.

* CE2+'S' - This is the EU method of verification.

* Agreement Certification - Sometimes used on new materials.

* Please note: CE2+ without the 'S' means nothing!!

Please discuss your requirements with our sales teams to make sure that you get the right product for the job!
